

## Supply List for Fall Special Term 2024

---

### Megan Jerbic, Investigations into Light and Color

- Paints of a preferred medium that you have experience with - Gouache, oil, acrylic, digital tablet, and so on. All the medium's associated materials - palette, medium, brushes, and so on.
  - Since we are working with color, you may find that you need a couple new tubes to cover the range necessary for the project - for instance, I find that quinacridone magenta packs a punch.
- 1-3 surfaces to paint on - canvas, board, mixed media paper. It is up to you if you want to do three different still lives or one or two extended ones.
  - I will be providing various materials for still lives, but I encourage you to bring things of your own that have meaning or are just interesting to you.
